HR expertise tailored to the needs of your business

We cover the entire employment cycle, from recruitment and training of your team, on-going HR management and policies, right through to the termination of employment.

Reworks are industry leaders in human resources, including performance management, mediation, investigations and work agreements. Human Resources is one of the greatest challenges for business, so consider us your own HR department. We'll help you achieve great results with your team.

HR services that drive value to your business

Workplace Investigations

Comprehensive, professional, third-party, examination of workplace issues that require organised, documented, non-biased investigation.

Performance Issues

Address employee performance issues in a non-emotionally charged yet legally-compliant manner that minimises the impact on employees and business productivity while reducing employer risk.

Workforce Planning

Align your workforce with the needs and priorities of your organisation in a manner that anticipates the future needs or risks of the organisation.

Human Resource Transformation

Transform your HR department from an administrative framework to one that encourages employee engagement and drives business success.

Compliance

Mitigate risk by ensuring your workforce management practices are compliant with federal, state, and local regulations.

HR Management System

To assist you find your way through the Human Resources maze, we can provide you with a comprehensive range of Human Resources Management System.

- HR Guidance Manual for Managers
- Templates - to support the HR Guidance Manual
- Employee Policy Manual
- Employee Induction Handbook
- Employee Workplace Health & Safety Handbook

OHS Management Systems

The core of a safe workplace is a robust health and safety management system.

We develop workplace health and safety manuals that provide businesses with a systematic and structured safety management system that complies with legislation.

We tailor the structure and framework of our manuals to any organisation – big or small – and will match the policies and procedures to the level of risk and maturity of your organisation.

Our manual and documents service extends to other areas of your safety management system, including individual workplace health and safety policies and procedures, employee handbooks, induction packs and workplace health and safety toolkits.
